# GENERAL INFORMATION

## Service Suggestions

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

Answering your telephone promptly will assure you better service and avoid abandoned calls or other attempts to reach you. Time is saved by identifying yourself, your Company, or your Department immediately.

*Speak slowly, clearly and directly into the telephone with your lips about one-half inch from the mouthpiece. Otherwise you will not be heard distinctly.*

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

## Attachments to Telephones

The equipment, apparatus and lines furnished you have been designed to produce the best telephone results. No instrument, appliance nor device of any kind not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines except as specifically provided in the Tariffs of the Telephone Company. You are requested, therefore, not to use nor permit the use of such instruments, appliances or devices. The Telephone Company reserves the right to remove such devices, when found, in order to protect the telephone service.

## "Beep" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of the recorder without this signal is unlawful.

## Attachment to Directories

To insure the usefulness of the directory, no attachment, holder or auxiliary cover, except such as may be furnished by the Company, shall be used in connection with any telephone directory furnished by the Company.

## Changes and Errors in Directories

No liability shall attach to nor be assumed by the Company for any errors or omissions in the compiling, printing or distributing of its directories. In order that the directory records may contain correct listings at all times, notification of changes or errors should be given at once to the Business Office of the Company.

## Improper Language

Profane or obscene language over the Company's wires is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

## How to Send Telegrams, Cablegrams and Radiograms by Telephone

To file a telegram, cablegram or radiogram by telephone follow the instructions given in this directory under the name of The Western Union Telegraph Company.

## Identification of Employees

All employees who are authorized to represent this Company are provided with a photographic identification card. This card, which is properly countersigned, shows the employee's name, signature and photograph. Subscribers are earnestly requested to refuse admittance to their premises to anyone who cannot furnish this means of identification.

## Service Difficulties

Our every effort is devoted toward providing you with the best possible telephone service. We shall appreciate your cooperation in reporting promptly any service troubles or defective equipment, such as broken mouthpieces, frayed cords, or loose wiring. Repairs and replacements by ordinary usage or unavoidable accidents are made without charge.

## Advertising Telephone Numbers

Many subscribers find it convenient and profitable to use their telephone numbers on stationery and business cards, as well as in their advertising. We encourage this practice, but it should be understood that the assignment of the telephone number does not vest in the subscriber a property right thereto.

We exert every effort to avoid changing telephone numbers, but the needs of the service occasionally compel us to do so. Obviously, when you display your telephone number, the value to you, and to the service as well, depends upon the number being carried correctly at all times. Therefore, in the event your number is changed, it is suggested that corrections be made as promptly as possible.

# Out-Of-Town Telephone Calls

## ASK FOR LONG DISTANCE

Tell the Long Distance Operator:

1. The City or Town you want.
2. The out-of-town telephone number, if available, or the name under which it is listed.  
FOR EXAMPLE: — "Calling Omaha, Nebraska, Walnut 3456." (If you don't know the telephone number)  
"Calling Omaha, Nebraska — anyone at Mr. J. Lowell's residence, 34 Blank Street."
3. Your telephone number (and name if required) when requested by the operator.

## STATION-TO-STATION CALLS

The above is a station-to-station call because you have not asked the operator to connect you with a particular person or a particular telephone or department reached through a private switchboard. The charge for a station-to-station call is slightly less than for a person-to-person call and begins when the called telephone or private switchboard attendant answers.

## PERSON-TO-PERSON CALLS

When you want to be connected with a particular person or with a particular telephone or department reached through a private switchboard, simply give the operator the same informa-

tion as above and the name of the person or department wanted, also the extension number if known. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension or department you want.

DAY RATES apply from 4:30 A. M. to 6:00 P. M. on all days except Sundays.

NIGHT RATES apply from 6:00 P. M. to 4:30 A. M. and all day Sundays.

## COLLECT CALLS

You may "Reverse" charges, that is, have them billed to the called telephone. Simply tell the operator you want to place the call "Collect." If the called party agrees to pay the cost, charges will be billed to his telephone. There is a small additional charge on station-to-station calls when the initial rate is 20 cents or less.

## TO OBTAIN A RATE FOR AN OUT-OF-TOWN CALL

Ask for Long Distance, and then ask for the Rate Operator.

## TO PLACE A TELEPHONE CONFERENCE CALL

Ask for Long Distance, and then ask for the Conference Operator who will give you rates and other details.

SKATE ON LINOLEUM

After waxing linoleum, you save a lot of hard rubbing if you put two big pieces of thick cloth (bath toweling is tops) on the floor, and skate around on these whenever you use the room for the next day or two.

## NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed the better firewood they make.

## KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.
